SIM 50 facilitates the powerful combination of the customer centric capabilities of Sage CRM MME with the UK's leading accountancy software solution, Sage Line 50 to deliver cost effective benefits to your organisation.

Oakley, a Sage Development and Microsoft Certified Partner, has developed the Sage Integration Module in response to strong customer and Sage Business Partner demand and in order to further complement their innovative range of customer orientated business solutions.

- Seamless integrated business solution that combines affordability with fully featured functionality in order to optimise opportunities and differentiate your company from your competitors.
- Provides powerful single point of reference and insight into the key aspects of your business permitting greater levels of control, security and profitability.
- Easy to deploy, scalable, customisable and intuitive to use enabling accelerated levels of utilisation and returns on investment.
